

Habbig HS760 Tree Cutter

...part of our Waterway Maintenance range

Habbig tree cutters have been manufactured in Germany for over **20 years**, providing high quality and robust tree cutting attachments for excavators and similar machinery.

Hundreds of Habbig tree cutters have been supplied in the UK and Ireland by exclusive distributor, Aquatic Control Engineering Ltd since 1996, to public environmental sectors, rail and other specialised contractors.

Habbig tree cutters are designed to fulfil one simple purpose; higher felling capacities with increased workplace health and safety. All Habbig tree cutters allow the operator to cut and grab timber from within the cab of an excavator and safely, quickly and neatly clear large volumes of branches and trunks. The timber can even be placed exactly where required.

The Habbig HS760 is a similar design to its sister the HS650 but provides greater cutting capacities and strength where required.

Design Benefits and Features

Versatility

The HS760 model can be manufactured with an integrated swivel (HS760 SE), allowing rotation of 55 degrees in either direction when mounted on an excavator.

Resting Bracket

This cost effective model features an additional frame support at the top, allowing tree lengths to rest against it. This is designed to allow for cutting efficiencies and increased operator safety whilst cutting at diameters of up to 230mm.

Technical Specification

Length	1600mm
Width	830mm
Height	1100mm
Weight	365kg
Opening span	670mm
Max. Working Load	850kg
Cutting dia. Soft wood	230mm
Cutting dia. Hard wood	180mm
Max. Cut Length	3 m
Hydraulic RAM: cutters	60l/m-100l/m 270 bar
Recommended Excavator size is 5-12 ton
